

What Comes Out

Proves the Value of

What Goes Into

A Bottle of

Hood's Sarsaparilla

We know what goes into a bottle of Hood's Sarsaparilla—the best, purest and most effective remedial agents in the vegetable kingdom, prepared in a combination and proportion and by a process peculiar to itself.

You know if you have taken Hood's Sarsaparilla, what comes out of it—good health, keen appetite, perfect digestion, a clear complexion, freedom from eruptions, relief from rheumatism, scrofula and catarrh.

First, last and all the time, Hood's Sarsaparilla purifies, enriches and vitalizes the blood. Then all diseases caused by impure or impoverished blood naturally disappear.

Over forty thousand testimonials in two years prove that good health comes out of Hood's Sarsaparilla.

Therefore, if your blood is bad, if you have scrofula swellings, inflammations, disfiguring humors, and wish to be rid of them and to have good blood and good health, take

Hood's Sarsaparilla

Good medicine goes into each bottle. Good health is sure to come out of it. Get it today.

ALLIED FLEET ABOUT TO SAIL

Its Destination Some Point in Turkish Waters.

MAY GO TO MITYLENE

Balkan States Warned by the Powers That This Is No Time to Take Any Part in Dispute—Notice Called Out by Bulgaria.

Paris, Nov. 25.—A Constantinople despatch to the Echo de Paris says that the international fleet assembled at the Piraeus is about to sail for Turkish waters. The despatch adds that Ferid Pasha, the grand vizier, has tendered his resignation to the sultan, who has refused to accept it.

Athens, Nov. 24.—In accordance with instructions from Baron von Calce, the Austrian ambassador at Constantinople and doyen of the diplomatic corps there, the international fleet at the Piraeus will sail today.

It is understood that it will go either to Mitylene or Besika bay.

London, Nov. 25.—The Vienna correspondent of the Chronicle says he learns that Bulgaria has notified one of the signatory powers of her intention to march troops into Macedonia unless the demonstration of the allies procures complete financial and other reforms in that province.

On the initiative of the Austrian minister of foreign affairs, Count Goluchowski, the powers will inform the Balkan states that they must not regard the demonstrations at an occasion for disturbance.

THE ALLIED FLEET.

Warships of Five Nations Arrayed Against Turkey.

Warships of five nations compose the fleet assembled for the naval demonstration against Turkey. They are as follows: Great Britain, armored cruiser Lancaster and scout ship Sentinel; France, cruisers Charlemagne and Kleb and two torpedo boat destroyers; Italy, cruiser Giuseppe Garibaldi and a torpedo boat, Austria, armored cruiser St. George and torpedo cruiser Sigetvor. There are also two Russian ships, the names of which have not been cable, but they are said to be of an obsolete type and practically useless save for the purpose of representing the Russian flag in the demonstration.

SAVED HER LITTLE BOY

Mrs. G. A. Goodwin of Blossburg, Pa., writes that her little son, Walter, had a dreadful cough and no appetite, and failed until he weighed only 35 pounds. Since taking Father John's Medicine he has gained in weight, now weighing 85 pounds, and his cough has been completely cured. "I am thankful to know that there is such a grand medicine," writes Mrs. Goodwin, "and I recommend it to all troubled with coughs, colds, or throat and lung troubles."

Remember Father John's Medicine is not a patent medicine, but the prescription of the eminent specialist who prescribed it for the late Rev. Father John O'Brien, by whom it was recommended and from whom it derived its name. It is free from opium, morphine, or any of the poisonous, nerve-deadening drugs or weakening stimulants. Cures colds or money back.

TOOK EVERY STRING.

Eagles Entertained Capitals in a "Hog-gish" Manner.

The Eagles again took every string from the Capitals in their bowling match at Alexander's alleys last evening. Averill had high single string score of 203, while McDonald led the three-string totals with 324.

The score:

EAGLES.			
Dewey	172	144	180-496
McDonald	172	160	192-524
Brown	145	155	197-497
Batchelder	175	158	163-496
Averill	202	133	132-467
Totals	866	750	864-2480

CAPITOLS.

Kellogg	111	145	256
Marcott	131	137	112-380
Badford	120	179	299
Blood	140	112	252
Picher	103	152	130-385
Gill	188	139	180-507
Totals	633	713	713-2079

AGAINST PEOPLE.

Nebraska Professor Says Law Is Now So Arrayed.

Chicago, Ill., Nov. 25.—A dispatch to the Record-Herald from Omaha says: "A contest between the people and the common law, akin to the ancient contest between the kings and the law, is now raging for the first time in history," asserted Roscoe Pound, dean of the law department of the University of Nebraska, before the state bar association Thursday. The title of his paper was "The Spirit of the Common Law."

"Nothing in the history of our common law is more striking than its tenacity in holding ground," continued the speaker. "Hitherto the people have been with it. Today, for the first time, the common law finds itself arrayed against the people instead of securing for them what they most prize. They know it chiefly as something which continually stands between them and what they desire."

"There is a growing popular dissatisfaction with our legal system. There is a feeling that it prevents everything and does nothing. In large part this dissatisfaction has a real basis, and is well founded."

Mr. Pound cited decisions to show that the right of the individual to contract as he pleases is upheld by our legal system at the expense of the right of society to stand between part of the people and oppression. He asserted: "That right of the individual and this exaggeration respect for his rights are common law dictums. No amount of admiration for our traditional system should blind us to the obvious fact that it exhibits too great a respect for the individual, and for the entrenched position in which our legal and political history has put him, and too little respect for the needs of society, when they come in conflict with the individual, to be in touch with the present age."

PROFIT NOT ON RECORD

Witness Says G. W. Perkins Made \$40,000 of This Sort.

N. Y. CO. BOOKS DON'T SHOW

Transaction Was One of a Company Loan to a Firm in Boston — Mystery in Hamilton Fund.

New York, Nov. 25.—Testimony to the effect that George W. Perkins, member of the firm of J. P. Morgan & Co., and vice president of the New York Life Insurance Company, had received profits amounting to \$40,000 on a loan of \$930,000 made by the company to a Boston firm—which he caused to be placed in a fund of which he is trustee, and of which profit he caused no record to be made on any of the New York Life Insurance Company's books, was elicited yesterday by Chief Inquisitor Hughes from Milton M. Mattison, a clerk in the company's financial department.

The information regarding the transaction in question was brought out only after the witness had shown much hesitancy, and had demanded of Mr. Hughes the name of "his informer."

The committee's counsel made no reply to the witness' demand, but passed his question as to whether there were cases in which third parties had received profits on transactions of the company without any record showing on the books.

Then, slowly, question by question, the information was brought out that Mr. Perkins had, in the instance referred to, received the profit on a loan, without causing any record to be made of his action.

The witness in response to questions, finally said he believed Mr. Perkins had used the money to swell the fund known as the "Nyle"—which in the New York Life is devoted to rewarding agents for results obtained. No entry to show how the money was used, the witness said, had been made on the books of the company.

Earlier in the session Mr. Hughes learned from the same witness that Andrew Hamilton had received more than \$50,000 direct from J. P. Morgan & Co., which amount represented the company's share in profits on an interest in the United States Steel organization scheme, disguised so as to appear as the participation of a subsidiary company. No record of this payment was to be found on the company's books.

As a result of yesterday's discoveries it is considered certain that J. P. Morgan will be called upon to tell the committee why he should have had an account with Andrew Hamilton of the New York Life.

Peremptory demand was made in the course of the investigation hearing upon the New York Life to produce immediately its file containing all the data upon its participation, direct or indirect, in the United States Steel syndicate.

In calling for these records Lawyer Hughes, representing the committee, delivered a stinging rebuke to Milton A. Mattison, a clerk in the New York Life's financial department, who produced what purported to be a complete list of his concern's syndicate participations. Mattison had been on the stand only a few minutes when Mr. Hughes elicited from him the information that the list was really not complete at all. On the contrary, it contained no record of large amounts of money deposited in the New York Security and Trust Company, which, as shown by correspondence, were put there to be used as subscriptions to United States Steel.

The witness at first denied that such was the case, but later admitted that the deposit was made in connection with a deal engineered by George W. Perkins, the purpose of which was to use the company's money in subscribing to United States Steel without committing the company to the participation—the risk being ostensibly taken by the Subsidiary Trust Company.

A letter dated April 27, 1903, showed that the New York Life was receiving returns from the dividends on the United States Steel syndicate. An enclosed check was referred to as representing the same.

A CARD.

We, the undersigned, do hereby agree to refund the money on a 50-cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25-cent bottle to prove satisfactory or money refunded.

Herpicide Produces Marvelous Results

The lady whose photograph is here

reproduced—writes the following letter about

Newbro's Herpicide

"The original remedy that kills the dandruff germ."

THE HERPICIDE COMPANY,

Detroit, Mich.

I am sending you my photograph to show what Newbro's Herpicide has done for me. Since I first tested it thoroughly on my own hair, I have used it exclusively in giving scalp treatments, and with wonderful success. I would not think of trying to get along without it. Yours sincerely, MRS. ANNA CONNOR.

Hair and scalp specialist,
No. 2807 Archer Ave., Chicago, Illinois.

The natural beauty and abundance of this lady's hair is a striking illustration of what Herpicide will accomplish, and this is only one of the thousands of letters that the Herpicide Company have on file from people all over the world who are pleased to tell of the marvelous results obtained by the use of Herpicide.

The Only Positive Safeguard Against Baldness is in the Use of

NEWBRO'S HERPICIDE

known throughout the world as "the original remedy that kills the dandruff germ." Herpicide is a new, scientific nonirritant germicide and prophylactic for the scalp—and positively cures dandruff, stops falling hair and prevents baldness. No one wants to lose their hair and it is a mighty serious matter to contemplate. Well, why trifle with the unknown or so-called Hair-Growers, when you are absolutely guaranteed that Herpicide will not only save what hair you have, but will restore it to its natural luxuriance? It is the dandruff germ, which infests the scalp, that causes the hair to fall out. Herpicide will eradicate this microbic disease of the scalp and protect it against re-infection, and your hair will then grow as nature intended. NEWBRO'S HERPICIDE has reached the pinnacle of fame as a hair preparation and enjoys a distinction strictly its own. As a Hair Dressing—Herpicide is truly exquisite on account of its dainty and refreshing odor which is characteristic—it beautifies the hair and leaves it soft, glossy, light and fluffy—it contains no oil, grease or sedimentary substance, neither does it stain nor dye the hair.

Stops Itching of the Scalp Almost Instantly.

Destroy the cause—you remove the effect.

A Healthy Hair.

ing the New York Life's portion on an amount "which we are carrying for you." This phrase, Mr. Mattison said, was incorrect.

A memorandum, indicating the United States Steel file in the New York Life's archives, gave Mr. Hughes the clue to demand its production.

Mattison was excused to get the file demanded.

Upon the return of the witness with the file Mr. Hughes read various letters from the New York Securities and Trust Company to the New York Life, in which it was shown that an agreement had been entered into by virtue of which the insurance company was to draw a share of the profits on the United States Steel Company syndicate, based upon its interest of \$2,235,000 placed in the hands of the trust company.

Other data was found showing that Andrew Hamilton had received from J. P. Morgan & Co., \$59,310.79 from profits due the New York Life on Oct. 1, 1902. The witness said he knew this money did not go through the insurance company's books.

Denial by Kidder-Peabody.

Boston, Nov. 25.—A member of the firm of Kidder, Peabody & Co., of this city, on being shown a copy of the testimony of Bookkeeper Mattison of the New York Life Insurance Company at the insurance investigation yesterday with reference to an alleged loan of \$920,000 to the Boston firm, said: "There never was any such transaction. The statement is either a mistake or a misstatement."

SAY HAMMOND CONFESSED.

Brother-in-Law Arrested and Police Tell of Admissions.

Albany, Nov. 25.—John Hammond, the missing husband of the woman whose strangled and decomposing body was found here Thursday wedged in a trunk in their home, is said by the police to have confessed more than a week ago to his brother-in-law, a Cohoes man named Mangini, that he had killed his wife.

Mangini was arrested at Cohoes yesterday morning, and under examination by the police admitted, it is said, that Hammond told him of the murder on Tuesday, Nov. 14, when Hammond appeared at Cohoes. At Hammond's request, Mangini says, he accompanied him to Rouses Point, and there left him on his way to Canada.

An autopsy held yesterday shows the woman was strangled to death, apparently about two weeks ago.

The Cohoes police later declared they had definite information that Hammond is in or near Montreal.

Daniel Bandmann Drops Dead.

Missoula, Mont., Nov. 25.—Daniel E. Bandmann, a Shakespearean actor and one of the best known residents of Montana, dropped dead at his ranch near here Thursday night from heart disease, superinduced by acute indigestion. He was sixty-six years old and was born in Cassel, Germany. He leaves a widow and family.

MRS. ANNA CONNOR,
2807 Archer Ave., Chicago, Illinois.

DANDRUFF IS AN ACTUAL DISEASE

and a very serious one, for it leads sooner or later to chronic baldness, which is incurable—the disease must be treated in a thoughtful, persistent and scientific manner. The dandruff germ must be destroyed and kept out of the scalp with NEWBRO'S HERPICIDE, because it is the only remedy that will actually kill the dandruff germ.

An Unhealthy Hair.

DOUGHERTY SENT TO PRISON.

Practiced Educator Gets From One to Fourteen Years on Each Count.

Peoria, Ill., Nov. 25.—Newton Dougherty, for years prominent educator and financier, pleaded guilty yesterday to five of the forged checks against him in connection with looting the school fund of thousands of dollars. He will be taken to the Joliet penitentiary. Judge Worthington pronounced sentence of from one to fourteen years in the penitentiary on each of the five counts, the same to be concurrent. While the court was speaking, Dougherty looked straight ahead of him. He did not move or say anything when sentence was pronounced.

Celebrated 90th Birthday Anniversary.

George Chase, of Essex Junction, celebrated the 90th anniversary of his birthday Wednesday. He was born in Westford but has resided in Essex Junction more than fifty years. Two of his daughters, Mrs. Hannah Plummer, of Cambridge, who is passing some time with him, and another daughter, Mrs. George Clark, of Essex Junction, dined with him. His other children were unable to be present.

Half a Handful in the Tub Saves the Rub

Half a handful, or about two tablespoonfuls is enough of POLI'S TROY LAUNDRY WASHING CRYSTALS to use in an ordinary wash tub. Ask your grocer for a package of SAVES THE RUB (as that is the name by which the crystals are known) and try it next wash day. You will be surprised at the result. SAVES THE RUB is a fine clean crystal that contains no soap. It has been used for years by the big laundries and knitting mills of Troy and vicinity, and it is

"THE CLEANER THAT MADE TROY LAUNDRIES FAMOUS"

By using SAVES THE RUB you can have cleaner clothes that retain ALL their color and save yourself a lot of work. You do not have to BOIL your clothes—boiling wears them out. No steam, no extra fire, no rubbing, wash all done before nine o'clock. Could wash day be more perfect?
